SUBJECT INDEX

Adolescents
  decision making and risk behavior in cancer survivors and their peers, 121-134, 158-159
    commentary, 135-137
  portraits of cancer display for *(abstract)*, 185-186
  videotape on living with cancer *(abstract)*, 171
Advanced practice nurses, in pediatric oncology
  educational needs of in 1987 and 1995, 204-211
    commentary, 212-213
Alcohol use
  in adolescent cancer survivors, 121-134
Ambulatory care
  primary nursing in *(abstract)*, 166-167
Anaphylaxis
  development of a nursing protocol *(abstract)*, 175
Anxiety
  cognitive behavioral interventions for pain and, 3-12, 13-14
Association of Pediatric Oncology Nurses (APON)
  history of from 1974 to 1993, 196-203
    APON presidents, 197
    milestones in growth, 197
  Proceedings of 19th Annual Conference, 155-189
    clinical practice abstracts, 165-169
    clinical practice poster abstracts, 174-179
    education abstracts, 169-173
    education poster abstracts, 184-189
    guest editorial, 155
    research abstracts, 158-165
    research poster abstracts, 180-183
    summary and highlights, 156-157
  tool for patient/family educational materials evaluation, 50-52
Avascular necrosis
  in acute lymphoblastic leukemia *(abstract)*, 166

Bard Access System Research Award Paper
  self-concept and social support in children with leukemia *(abstract)*, 158
Behavioral training
  video system to facilitate radiation treatment without sedation, 91-97
Bereavement follow-up
  extending nursing care, 219-225
Blood disorders
  memorial service for children dying from, 72-79, 80
Bone marrow aspirations
  cognitive behavioral pain and anxiety interventions for, 3-12, 13-14
Bone marrow transplant
  effects on support on mothers' responses during child's *(abstract)*, 159-160
  peripheral stem cell transplant *(abstract)*, 176-177
  school-age children's perceptions of isolation during *(abstract)*, 161
Bone marrow transplant units
  cognitive behavioral pain and anxiety interventions used in, 3-12, 13-14
  transition to intermediate care from *(abstract)*, 184
Book reviews
  Berglund: *An Alphabet About Kids with Cancer*, 102
  Nevidjon: *Building a Legacy: Voices of Oncology Nurses*, 101-102
  Tartakoff: *My Stupid Illness*, 102-103
Brain tumors
  neuro-oncology nursing research issues, 40-42
Busulfan
  pharmacology, 150-152
    adverse effects, 151
    dosage and administration, 151
    drug interactions, 151-152
    formulation and storage, 152
    indications, 150
    mechanism of action, 151
    pharmacokinetics, 150-151

Cancer survivors
  decision making and risk behaviors of adolescents and their peers, 121-134, 135-137, 158-159
  knowledge and perception of disease *(abstract)*, 181
  observations from *(Roadmaps)*, 235-236
Cancer susceptibility
  genetic testing of children for, 46-49, 194-195 *(letter)*
Cancer therapy
  child and parent perspective on completion of *(abstract)*, 160-161
Cancer, children with
  fatigue in *(abstract)*, 178
  humor and play as nursing interventions for, 15-20
  memorial service for, 72-79, 80
  pain experience away from health care setting, 109-120
  Swedish health care personnel's perceptions of disease and treatment-related problems in, 61-70, 71
  tool to assist with age-appropriate care for *(abstract)*, 177-178
  uncertainty and coping in fathers of, 81-88, 89-90
Care, nursing
  age-appropriate for children with cancer *(abstract)*, 177-178
  identifying levels of, 59-60 *(editorial)*
  nursing unconquerable hope (photographs), 214-219
Case reports
  humor and play as nursing interventions, 15-20
Centers of care. See also *Pediatric oncology centers.*
  identifying levels of nursing care in, 59-60
Central line care
  standardization of *(abstract)*, 188-189
Chemotherapy
  competency verification program for nurses *(abstract)*, 172-173
  Taxotere, pharmacology of, 43-45
Childhood cancer. See also *Cancer, children with.*
  as buffer against racism *(abstract)*, 181-182

Chile
pediatric oncology nursing in *(letter)*, 2
Cigarette smoking
in adolescent cancer survivors, 121-134
Clinical trials
parents' responses to early randomization decisions *(abstract)*, 164-165
Cognitive behavioral interventions
for coping with pain and anxiety, 3-12
commentary, 13-14
Computers
electronic media, 53-55
teaching documentation tool for patients and families, 173 *(abstract)*, 232-234
Continuing education
needs of advanced practice nurses in 1987 and 1995, 204-211, 212-213
Coping
helping parents at high risk with *(abstract)*, 165-166
in fathers of children with cancer, 81-88, 89-90
Cyclosporine
pharmacology, 98-100
administration and dosage, 99
adverse effects, 99
drug interactions, 99-100
formulation and availability, 100
indications, 98
mechanism of action, 98
pharmacokinetics, 98

Death
bereavement follow-up, 219-225
experiencing a good death *(Roadmaps)*, 56-57
knowing when enough is enough *(editorial)*, 1
memorial service for families after child's, 72-79, 80
Docetaxol. See *Taxotere*.
Documentation
computerized teaching documentation tool for patients and families, 173 *(abstract)*, 232-234
flow between inpatients and outpatients *(abstract)*, 179
Drugs. See also *Pharmacology*.
illicit, use among adolescent cancer survivors, 121-134
Dying patients
carrying out the wishes of *(Roadmaps)*, 104
hermeneutical analysis of working with *(abstract)*, 161-162
needs of parents during palliative care phase *(abstract)*, 163-164
nursing visits to dying patients' homes in The Netherlands *(letter)*, 107-108

Education, patient/family
computerized teaching documentation tool for, 173 *(abstract)*, 232-234
developing materials for families, 146-149
development of evaluation tool for materials for, 50-52
family workshops *(abstract)*, 174
interactive workbook to prepare child for radiation therapy *(abstract)*, 186-187
parents' time out group *(abstract)*, 169-170
photographic display for *(abstract)*, 185-186
teaching tool for preschoolers with venous access device *(abstract)*, 187-188
videotape for adolescents *(abstract)*, 171
Education, staff
chemotherapy competency verification program *(abstract)*, 172-173
educational needs of advanced practice nurses in oncology in 1987 versus 1995, 204-211, 212-213
enhancement program for hematology/oncology nurses *(abstract)*, 171-172
for Emergency Department about pediatric oncology, care *(abstract)*, 170-171
standardization of central line care *(abstract)*, 188-189
Electronic media, 53-55
Emergency departments
care of pediatric oncology patients in *(abstract)*, 170-171
Enteral nutritional support
for children with cancer *(abstract)*, 183
Ethical issues
genetic testing of children for cancer susceptibility, 46-49, 194-194 *(letter)*
Ethnicity
and biases in research on procedural pain, 31-39
Existential problems
Swedish health care personnel's perceptions of in children with cancer and their families, 61-70

Family(ies), of pediatric oncology patients. See also *Mother(s)*, *Father(s)*, and *Parent(s)*.
developing educational materials for, 146-149
Hozhoni weekend camp for *(abstract)*, 185
memorial service for, 72-79
Swedish health care personnel's perceptions of disease and treatment-related problems in, 61-70, 71
uncertainty and coping in fathers, 81-88, 89-90
workshops for *(abstract)*, 174
Family-centered care
evaluating in-hospital care by mothers in United Kingdom, 138-145
Father(s), of patients
focus group summary *(abstract)*, 175-176
uncertainty and coping in, 81-88
commentary, 89-90
Fatigue
in children with cancer *(abstract)*, 178

Genetic testing
of children for cancer susceptibility, 46-49, 194-195
Grief
bereavement follow-up, 219-225
memorial service for families and staff, 72-79, 80

Health care personnel
memorial service for families of patients, 72-79, 80

Swedish, perceptions of disease and treatment-related problems in children and families, 61-70, 71
Hermeneutical analysis
of working with dying children *(abstract)*, 161-162
Home care
in Japan versus in the U.S., 226-232
Hospitalization. See also *Inpatient care.*
length of in Japan versus U.S., 226-232
Humor
and play as nursing interventions, 15-20

Infusion rates
effect on platelet count *(abstract)*, 180
Inpatient care
documentation process and flow between outpatient and *(abstract)*, 179
master patient care plan for outpatient and *(abstract)*, 168
International pediatric oncology nursing
differences in pediatric oncology care in Japan, 226-232
evaluating in-hospital care by mothers in United Kingdom, 138-145
in Chile *(letter)*, 2
Swedish health care personnel's perceptions of disease and treatment-related problems, 61-70, 71
The Netherlands, nursing care to ease child's death at home *(letter)*, 107-108
Internet
electronic media, 53-55
Interventions, nursing
cognitive behavioral for pain and anxiety, 3-12, 13-14
humor and play as, 15-20

Japan
differences in pediatric oncology care from that in U.S., 226-232
home care, 227, 229
length of hospitalization, 227, 228-229
support systems, 227-228, 229-230
telling the diagnosis, 226-227, 228

Letters to the Editor
easing a child's death at home, 107-108
genetic testing of children for cancer susceptibility, 194-195
pediatric oncology nursing in Chile, 2
Leukemia
avascular necrosis in acute lymphoblastic *(abstract)*, 166
self-concept and social support in school-age children with *(abstract)*, 158
Levels of care
identifying in pediatric oncology nursing *(editorial)*, 59-60
Lumbar punctures
cognitive behavioral pain and anxiety interventions for, 3-12, 13-14
promoting parental use of nonpharmacologic techniques during, 21-30

Media
book reviews, 101-103
Berglund: *An Alphabet About Kids with Cancer*, 102
Nevidjon: *Building a Legacy: Voices of Oncology Nurses*, 101-102
Tartakoff: *My Stupid Illness*, 102-103
electronic media, 53-55
computer, 54
modem, 53
software, 54
Memorial service
for families of children dying from cancer and blood disorders, 72-79
clinical evaluation, 78-79
commentary, 80
literature review, 72-74
planning, 74-77
Mother(s)
effects of support on responses of during child's bone marrow transplant *(abstract)*, 159-160
evaluating in-hospital care by in United Kingdom, 138-145

Needleless access devices
infection-related indicators *(abstract)*, 182-183
Netherlands
nursing care to ease child's death at home, 107-108 *(letter)*
Neuro-oncology nursing
research issues, 40-42
Nonpharmacologic techniques
promoting parental use of during lumbar punctures, 15-20
Nurse(s), pediatric oncology
educational needs of advanced practice nurses in 1987 and 1995, 204-211, 212-213
husband's cancer changes nurse's perspective, 153-154
nursing unconquerable hope (photographs), 214-219
testing the stress-response sequence model in *(abstract)*, 162-163
Nursing interventions. See *Interventions, nursing.*
Nutritional support
enteral *(abstract)*, 183
outcomes of in pediatrics *(abstract)*, 167-168

Oncology centers. See *Pediatric oncology centers.*
Outpatient care
documentation process and flow between inpatient and *(abstract)*, 179
master patient care plan for inpatient and *(abstract)*, 168

Pain, cancer
away from the health care setting, 109-120
Pain, procedural

cognitive behavioral interventions for anxiety and, 3-12, 13-14
sampling issues and biases in pediatric oncology, 31-39
Parents, of pediatric oncology patients. See also *Mother(s), Father(s),* and *Family(ies).*
educational/support group for *(abstract)*, 169-170
helping parents at high risk to cope *(abstract)*, 165-166
needs of during palliative care phase *(abstract)*, 163-164
perspective on completing cancer therapy *(abstract)*, 160-161
promoting use of nonpharmacologic techniques by during lumbar punctures, 21-30
responses to early randomization decision in clinical trials *(abstract)*, 164-165
Patient care plan
multidisciplinary inpatient/outpatient *(abstract)*, 168
